3. Cross-Modal Inconsistencies & Contradictions

[CONFLICT] Contradiction (Severity: High)

Details: Claimant asserts straight travel on green; official traffic warden asserts Claimant initiated an unauthorized right turn across oncoming traffic; bystander suggests amber race.

Materiality: Determines third-party recovery subrogation potential vs Own-Damage contributory fault.

Recommended Resolution: Obtain automated Chennai Traffic Police ANPR/Smart City signal timing and camera sync.

[CONFLICT] Contradiction (Severity: Critical (Priority Reference #1))

Details: PRIORITY REFERENCE #1: Consumer file narrative claims 'I had a green signal and was moving straight North on Anna Salai. A red Thar approach...', whereas Official Police General Diary (GD-004/2026 - Koramangala Traffic Police Station) records dynamic moving collision with conflicting damage locus and driver divergence at scene.

Materiality: Fundamental (Primary Reference) - Direct factual mismatch between consumer sworn declaration and official police station record.

Recommended Resolution: Request certified Station GD folio from Koramangala Traffic Police Station and examine attending officer.

4. Multi-Hypothesis Accident Reconstruction

Unauthorized Right Turn into Oncoming Path — *Support Level: Supported by Official Witness (Prob: 65%)*
• **Summary:** Claimant attempted right turn across traffic without dedicated green filter signal.
• **Assumptions:** Traffic warden positioned at island had clear view of turn

Straight Transit with Third-Party Signal Violation — *Support Level: Supported Solely by Claimant (Prob: 35%)*
• **Summary:** Claimant went straight and third party breached signal.
• **Assumptions:** Third party accelerated into yellow phase
